

- **Packaging: tube**
- **Aspect: brilliant white cream**
- **A zero-defect cream, we say yes!**
- **CERAMOSIDES™ HP is an high-performance anti-aging shield: the skin texture is refined, pores are tightened.**
- **SEPIPLUS™ 400, polymer silicone-like, thickens the formula and brings emollience and gliding during application.**
- **MONTANOV™ 202, delivers a light and evanescent sensory feel.**
- **A light cream for a long lasting perfect skin effect!**

EU07423-1611

Formula

A	Aqua / Water	Up to 100%
B	MONTANOV™ 202 LANOL™ 99 Propanediol Dicaprylate Coco Caprylate Caprate Capric Caprylic Caprate SEPICIDE™ HB	3.00% 2.00% 3.00% 7.00% 4.00% 1.00%
C	SEPIPLUS™ 400	0.80%
D	Aqua/Water CERAMOSIDES™ HP	8.00% 0.20%

Procedure
Pilot, 2 kg

Take a beaker of 3L, weigh the ingredients of phase B and melt them in a hot water bath at 85°C. When phase B is completely melted, add phase C. Heat the water of the phase A and emulsify by adding (B+C) into phase A (6 min, 5000rpm). Then, cool down at room temperature and homogeneize (300rpm). Finally, homogenize the phase D and add it into the cold emulsion under agitation.

Characteristics

Appearance	White and compact emulsion
pH	5.8
Viscosity D7 at RT	74200 mPa.s Brookfield S4M6
Viscosity 1M at 45° C	
Viscosity recovery at RT (after 1M at 45° C)	
Stability*	Stable at RT,45° C, 4° C, in cycles -4/+40° C

Raw materials from SEPPIC

MONTANOV™ 202

Arachidyl Alcohol and Behenyl Alcohol and Arachidyl Glucoside

Glucolipid emulsifier derived from vegetable origin. Promoter of liquid crystals, it plays a role in maintaining skin moisturization over time. Thanks to liquid crystals which contain water, MONTANOV™ 202 helps to keep skin moisturized. Ecocert and Natrue approved.

LANOL™ 99

Isononyl Isononanoate

Emollient agent.

SEPICIDE™ HB

Phenoxyethanol and Methylparaben and Ethylparaben and Propylparaben and Butylparaben

Liquid and easy-to-use preservative with a broad antimicrobial spectrum.

SEPIPLUS™ 400

Polyacrylate-13 and Polyisobutene and Polysorbate 20

Thickening agent in liquid form ready to use (no predispersion or neutralization). SEPIPLUS™ 400 gives an improved electrolyte resistance. It also allows a good pick-up and guarantees a good spreadability and is compatible with a wide range of actives over a wide pH range (3 to 12).

CERAMOSIDES™ HP

Triticum Vulgare (Wheat) Seed Extract

The essence of perfect skin. CERAMOSIDES™ HP are an original combination (patented) of natural CERAMIDES and OMEGA which protect the skin from the loss of elasticity, one of the primary causes of enlarged pores with age. After 56 days of treatment, the skin roughness is smoothed (-73% skin roughness) and the pores are visibly smaller.

Other raw materials...

- Propanediol Dicaprylate : **DUB Zenoat (Stéarinerie Dubois)**
- Coco Caprylate Caprate : **LANOL 2681 (Stéarinerie Dubois)**
- Capric Caprylic Caprate: **TRIGLYCERIDE 5545 (Stéarinerie Dubois)**
