With WESOURCE

White shiny emulsion / Packaging: Pump

pH: 4.1

VISCOSITIES: 1M at RT: 30,200 mPa.s Brookfield LV4-6

Recovery at RT (after 1M at 45°C): 25,200 mPa.s Brookfield LV4-6

STABILITY: 1M at RT, 45°C

FORMULATION ADVICES: Laboratory scale - 2000 g - Rotor stator

Heat aqueous phase A at 80 °C. Heat oily phase B at the same temperature then add phase C into B. Add phase A into phase (B + C) and emulsify under rotor stator for 4 min at 4000 rpm. Cool down progressively under moderate agitation (anchor 10 min / 100 rpm) and add ingredients of phase D, continue agitation (anchor 10 min / 200 rpm).

Very light with a strong powdery afterfeel, this serum creates a matte velvety veil that slowly envelops your skin.

This exalted powdery sensation is provided by the sensory emulsifier **SENSANOV™ WR**. (C20-22 Alkyl Phosphate and C20-22 Alcohols)

Versatile phosphate anionic emulsifier effective at low dosage (1 to 3%). Provides a feeling of **lightness followed by the sensation of a matt velvety veil**.

The serum is stabilized by **SEPINOV™ EMT 10**, which imparts a light satin and fresh skin feel. (Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer)

Pre-neutralized powder polymeric thickener on a wide pH range (3-12). It provides also **excellent oil stabilizing property** even in presence of a high percentage of oily phase.

The formula contains **EMOGREEN™ L15**, a plant-based alkane offering a soft, powdery matt skinfeel. (C15-19 Alkane (Plant-based & Renewable))

It's THE alternative to volatile silicone oils. This **high purity vegetable alkane** is conformed to Cosmos and Natrue.

CELTOSOME™ CRITHMUM MARITIMUM acts on the prevention of skin aging & cutaneous pigmentation (in vivo study).

(Crithmum Maritimum Callus Culture Filtrate)

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. (Xylitylglucoside and Anhydroxylytol and Xylitol)

Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced (in vitro and in vivo tests prove this efficacy).

ADDITIONAL INGREDIENTS: Phenoxyethanol - Ethylhexylglycerin - EUXYL PE 9010 (SCHULKE & MAYR).
