With WESOURCE

Transparent Orange Gel / Packaging: Pump

pH: 6.4 / **VISCOSITIES: 1M at RT:** 5,720 mPa.s Brookfield LV4-6

STABILITY: 1M at RT, +4°C & +45°C

FORMULATION ADVICES: Laboratory scale - 4 kg - Trimix

Mix the phase A, then introduce SEPIMAX ZEN™. Under vacuum, maintain agitation until having an homogeneous and smooth gel. Then, break vacuum, add the foaming ingredients (phase C) and homogenize and break bubbles. Then, introduce the phase D and adjust pH if necessary (with NaOH 48%).

COLD
PROCESS

For the face & the body, this foaming gel
looks like a shower oil!

Offering a sensorial moisturizing gel-oil effect on the skin,
this gentle cleanser is transformed into a light foam
on contact with water.

SEA MAYWEED SC, "sea chamomile", brings relaxation & well-being.

(Aqua/Water - Tripleurospermum Maritimum Extract)

All the benefits of the 'sea chamomile' for an **immediate cocooning & soothing effect**. Double action: **target the pro-inflammatory cytokine** (IL-1alpha, IL-6 & TNF-alpha) and **the substance P** released after a painful stimulus.

PROTEOL™ APL, surfactant with "fruity" concept, creates a delicate foam
for a perfect respect of sensitive skins. (Sodium Cosoyl Apple Amino Acids)

Fruit surfactant, derived from apple juice essential amino-acids, for a **gentle approach**: unctuous foam, **extremely mild to the skin & the eyes** and also **respectful of the environment**.

SEPIMAX ZEN™ allows to obtain a transparent and brilliant formulation,
having the aspect of a sensual oil with an emollient and non greasy skin
feel. It also stabilizes this formula concentrated in foaming active material
(10 %). (Polyacrylate Crosspolymer-6)

Powder polymer with a MAXIMUM resistance to electrolytes (**high associative behavior**). Stable from pH 2 to 8, it enables the creation of formulas with a **specific skin feeling**, included foaming formulas: **rich, velvety & elegant**. It is now possible to formulate transparent aqueous gels, cream-gels and emulsions with any kind of active ingredients & to **achieve ZEN**.

ADDITIONAL INGREDIENTS: Colorant C115985; Colorant 08006-J, solution at 1% (SENSIENT LCW) / Phenylpropanol - Propanediol - Caprylyl Glycol - Tocopherol; Sensiva PA 40 (SCHÜLKE & MAYR) / Phenoxyethanol - Ethylhexylglycerin; Euxyl PE9010 (SCHÜLKE & MAYR) / Fragrance: Parfum POP Abricot (TECHNICO FLOR).
