With **WESOURCE**

White Emulsion / Packaging: Tube

pH: 5.7

VISCOSITIES: 1M at RT: 33,400 mPa.s Brookfield LV4-6

Recovery at RT (after 1M at 45°C): 46,000 mPa.s Brookfield LV4-6

STABILITY: 1M at RT & 45°C, cycles -5°C/+40°C

FORMULATION ADVICES: Laboratory scale - 5 kg - Trimix, Rotor Stator

Melt phase B at 80°C. Prepare B' at 85°C. Add phase A to B then emulsify at the rotor-stator (4000 rpm; 6 min). Add B' then re-emulsify (4000 rpm; 2 min). Allow to cool under anchor (100 rpm; 10 min). Add phases C and D then allow to cool at TA under anchor (200 rpm; 10 min).

**A 4-in-1 leave-in hygiene product,
offering a new gesture!**

Wow, saving water for the planet!

No need to buy additional skin care anymore!

This new shaving treatment is made of **MONTANOV™ 82 & SOLAGUM™ AX** at a high dose which allow a light soaping effect when applied on wet skin. **SEPIMAX ZEN™ & SOLAGUM™ AX** ease shaving by offering a gliding effect. The emulsion protects the skin and leaves a smooth and healthy skin. Practical, fast & ecological!

MONTANOV™ 82 (Cetearyl Alcohol - Coco-Glucoside)

Glucolipid emulsifier derived from vegetable origin, especially well-suited for formulations with a high concentration of active ingredients.

SOLAGUM™ AX (Acacia Senegal Gum - Xanthan Gum)

Combination of stabilizing natural origin gums.

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6)

Powder polymer with a MAXIMUM resistance to electrolytes (**high associative behavior**). Stable from pH 2 to 8, it enables the creation of formulas with a **specific skin feeling: rich, velvety & elegant**.

SEPICALM™ S WP soothes irritated skin & **CONTACTICEL™** purifies it.

SEPICALM™ S WP (Sodium Cocoyl Amino Acids - Sarcosine - Potassium Aspartate - Magnesium Aspartate) : Aminoacids biovector enriched with mineral salts ; **Happiness Soother for sensitive skin**, which is **protected from internal or external stresses** (inflammations, abrasions...). Skin is exalting a **real sensation of well being and comfort** (increases the production of **cutaneous pleasure molecules**, relieves irritative reactions and moisturizes effectively). *In vivo & in vitro* proven efficacy.

CONTACTICEL™ (Aqua / Water - Butylene Glycol - Hydrolyzed Rhodophyceae Extract) : **Macroalgae cells of Acrochaetium moniliform**, from **CELEBRITY™ technology**. The **skin is protected against pollution** (-34% of sebum in polluted atmosphere & -61% of ozonized squalene ; proven effectiveness on volunteers).

AQUAXYL™ hydrate la peau durablement après le rasage.

(Xylitylglycoside - Anhydroxylitol - Xylitol)

Moisturizes and restructures the skin by harmonizing its hydric flow (boosted water reserves, improved water circulation in all skin layers, reduced water loss ; *in vitro & in vivo* proven). Moreover, it improves the foam quality & **reduces irritation induced by LESNa**. Mechanism of action validated by cosmetogenomics.

INGREDIENTS ADDITIONNELS : Phenoxyethanol - Ethylhexylglycerol : EUXYL 9010 (SCHÜLKE & MAYR) / Propanediol: ZEMEA (DUPONT COMPANY) / Fragrance: Zen 217870 (MANE FRAGRANCE).
