..... With WESOURCE

White liquid / Packaging: Spray

pH: 5.9

VISCOSITIES: 1M at RT: 2,140 mPa.s Brookfield S4S6/

STABILITY: 1M at RT, 45°C, cycles -5°C/+40°C.

FORMULATION ADVICES: Laboratory scale - 200g

Faire fondre la phase A et une fois fondue, ajouter le Simulgel INS 100. Préparer la phase B avec **50% de la quantité d'eau chaude**. Emulsionner en versant la phase B dans la phase A puis émulsionner au silverson 4000 t/min pendant 4', au bout de 2' ajouter **les 50% restants d'eau chaude** puis refroidir sous ancre 10' à 100 t/min puis ajouter un bain-marie d'eau froide et remettre sous ancre 10' à 100 t/min. Ajouter l'H.E à 40°C.

A dermo-protective spray specially designed for pets to protect & purify!

MONTANOV™ L the glycolipid emulsifier in harmony with nature!

(C14-22 Alcohols and C12-20 Alkyl Glucoside)

By promoting liquid crystals to prevent the skin from dehydration, **MONTANOV™ L** has a **strong moisturizing and stabilising power** ! It is also well-suited to **formulate different textures**, from sprayable to butter creams, no matter the nature or the quantity of fatty phase used.

The use of **LANOL 99** (Isononyl Isononanoate) as an emollient, brings a soft and light touch, with a non-greasy finish through a short playtime!

SIMULGEL™ I-NS 100 stabilizes the sprayable formula!

(Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer and Isohexadecane and Polysorbate 60)

As a **pre-neutralised liquid**, SIMULGEL™ INS 100 is used to develop from **sprayable to very thick formulas**. It creates **melting textures with a fresh skin feel!**

LIPACIDE™ C8G & LIPACIDE™ UG, the ideal dermo protection for pets.

LIPACIDE™ C8G (Capryloyl Glycine)

Glycine biovector, it **protects and regulates the skin** by restoring the "acid layer". Acting as a **protective agent** in cosmetic formulations, it has **anti-dandruff and anti-irritations properties**, and limits the use of preservatives.

LIPACIDE™ UG (Undecylenoyl Glycine)

As a **skin and hair dermo-protective active ingredient**, LIPACIDE™ UG fights the proliferation of the germs responsible for skin and fur problems. It has deodorant property. By protecting the formulas, it is also the ideal solution for **sensitive skins!**

ADDITIONAL INGREDIENTS: Dimethicone : DC 200 (DOW CORNING)/ Pentaisononanoate de Dipentaerythritol: DUB VINYL (ST.DUBOIS) / Fragrance : Melaleuca Cajaputti Extract : HE CAJEPUT

A formula related to PET CARE concept
