This essence makes your skin healthy thanks to the **CERAMOSIDES™ HP**.

SEPI MAX™ ZEN (Polyacrylate Crosspolymer-6)

Pre-neutralized powder polymeric thickener with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Efficient on a wide range of pH from 3 to 8, it is able to formulate transparent aqueous gels. It provides also oil stabilizing effect and particle suspension property. It imparts rich, velvet and elegant skin feel.

SEPI NOV™ EMT-10 (Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer)

Pre-neutralized powder polymeric thickener on a wide pH range (3-12). It provides also excellent oil stabilizing property even in presence of a high percentage of oily phase. It imparts satiny and fresh skin feel.

AQUAXYL™ (Xylitylglycoside and Anhydroxylytol and Xylitol)

AQUAXYL™ moisturizes the scalp and protects the barrier function against the effects of glycerin. Moreover, it improves the foam quality and reduces irritation induced by some surfactants (LESNa...). It's mechanism of action has been validated by cosmetogenomics. Cosmos and Nature approved.

OLIGOGELINE™ SPE (Chondrus Crispus Extract)

OLIGOGELINE SPE works as a second skin, forming a natural non occlusive shield to protect from pollution effects. 78% of microparticles are removed. Protection is about 43% versus non treated skin. Results are significant versus placebo.

CERAMOSIDES™ HP (Glycosphingolipids & Glycolipids)

The essence of perfect skin. CERAMOSIDES™ HP are an original combination (patented) of natural CERAMIDES and OMEGAs which protect the skin from the loss of elasticity, one of the primary causes of enlarged pores with age. After 28 days of application, the complexion is fresher, the pores are visibly smaller.
