With WESOURCE

White Lotion / Packaging: Pump

pH: 6.0 / **VISCOSITIES: 1M at RT:** 10 300 mPa.s Brookfield LV2-6 /

Recovery at RT (after 1M at 45°C): 10 100 mPa.s Brookfield LV2-6.

STABILITY: Stable M1 at RT, 45°C, -18°C and cycles -5°C/+40°C.

PROCEDURE ADVICES / Weigh ingredients of phase A and heat to 80°C. Disperse SOLAGUM™ AX in water and heat phase B 80°C. Pre-disperse phase C in phase A, add phase B into phase A+C, homogenize it by Silverson at 4000 rpm for 5 minutes. Stir the emulsion under anchor stirring 100 rpm and gentle cooling. Mix phase E until clear. Add phase D and E into the emulsion and stir it under anchor stirring at 150 rpm until uniform.

Hydration by active ingredients but also
the structure of the emulsion.

The ally of thirsty skins !

MONTANOV™ L (C14-22 Alcohols and C12-20 Alkyl Glucoside)

Glucolipid emulsifier in harmony with nature. MONTANOV™ L is well-suited to formulate different textures (from sprayable to butter cream) no matter the nature or the quantity of fatty phase used. It stabilizes emulsions, and has a strong moisturizing power since it promotes liquid crystals which prevent the skin from dehydration

AQUAXYL™ (Xylitylglycoside & Anhydroxylitol & Xylitol)

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted and water loss is reduced.

MADECASSOSIDE (Madecassoside)

MADECASSOSIDE is a pure active from Centella asiatica that soothes and brings comfort to sensitive skin and atopic-prone skin.

EMOGREEN™ L15 (C15-19 Alkane (Plant-based & Renewable))

It is a non polar and biodegradable, bio-sourced emollient. It's THE alternative to volatile silicone oils. This high purity vegetable alkane is conformed to Cosmos and Natrue. Beyond the lightweight and non-greasy skin feel, it gives a powdery finish.

SOLAGUM™ AX (Acacia Senegal Gum and Xanthan Gum)

Combination of natural thickening polymers. It allows you to formulate non-stringy translucent gels and can be used with hot or cold process. Ecocert and Natrue approved.

SEPIPULS™ K (Polyacrylate-13 and Hydrogenated Polyisobutene and Polyglyceryl-10 Laurate)

EWG-friendly Liquid concentrated polymer, easy to use pre neutralized and cold-processable.

ADDITIONAL INGREDIENTS: Caprylic capric triglyceride - Myritol 318 (BASF) / Phenoxyethanol and Ethylhexylglycerin - EUXYL PE 9010 (SCHULKE AND MAYR)/ Caprylyl glycol and Ethylhexylglycerin - Sensiva SC 10 (SCHULKE & MAYR).

A formula related to "Clean Cosmetics" concept.
