Light blue fluid / Packaging : Foam pump
pH: 6,8

VISCOSITIES: 1M at RT : <50 mPa.s Brookfield S256

STABILITY: 1M at RT & 45°C

FORMULATION ADVICES - Laboratory scale - 200 g

Weigh the ingredients of phase A and form the gel under defloculator at 700 rpm during 10 minutes. Add phase B and mix. Add one by one the ingredients of phase C and homogenize with a spatula between each addition.

Enjoy a soft and rich foam with our **PROTEOL™ APL EF** and relax thanks to **SEPICALM™ S WP** !

Dive into a subtle mix of science and fun !

Thanks to **PROTEOL™ APL EF** (Sodium Cocoyl Apple Amino Acids), the foam is unctuous and gentle for the skin and the eyes.

Fruit surfactant derived from **essential amino-acids** present in apple juice, for a **gentle approach and also respectful of the environment**.

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6) stabilizes and brings texture to the foam : **denser, softer foam with a creamy feel**.

Powder polymeric thickener with a **MAXIMUM resistance to electrolytes**. Efficient on a wide range of pH from 3 to 8. It imparts a **specific sensoriality**: a rich, velvety and elegant skin feel and a **long-lasting foam**.

SEPICALM™ S WP (Sodium Cocoyl Amino Acids - Sarcosine - Magnesium Aspartate - Potassium Aspartate) soothes the skin from **internal and external aggressions** by releasing **endorphins**.

Happiness soother for sensitive and irritated skin ! Aminoacids biovector enriched with mineral salts, it **protects the skin from any type of internal or external stress** (fights against aggressions such as inflammation, UV rays, abrasions ...) while exalting it by a **real sensation of well being and comfort** (increases the production of cutaneous pleasure molecules, relieves irritative reactions felt by delicate skin and moisturizes effectively). Efficacy proven on volunteers and at the heart of skin cells. **A gentle invitation to relaxation...**

AQUAXYL™ (Xylitylglycoside and Anhydroxylitol and Xylitol) improves the quality of foam and brings mildness.

It **moisturizes and restructures the skin** by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced.

ADDITIONAL INGREDIENTS : Fragrance - AVOCAT & KARITÉ (EXPRESSIONS PARFUMÉES) / Preservative - Sodium Benzoyste - Potassium Sorbate - EUXYL K 712 (SCHULKE & MAYR) / Colorant : FD&C BLUE N°1 - Solution à 0.1% (UNICERT BLUE 05601-J) (SENSIENT LCV)
