COLD  
PROCESS

A soft body oil enveloping the skin in comfort while illuminating and softening the skin

Shake and apply on skin that needs some "Golden State" glow!

**EMOGREEN™ L15** gives a refreshing and gliding sensation with a soft afterfeel. (C15-19 Alkane)  
**EMOGREEN™ L15** is a non polar high purity vegetable alkane, alternative to silicones. It gives a **fresh and gliding touch**, lightweight and non-greasy skin feel, and a **powdery finish**.

**FLUIDANOV™ 20X** is a smart co-emulsifier that helps to solubilize **LUMIPOD™** active in this clear oil (Octyldodecanol and Octyldodecyl Xyloside) W/O co-emulsifier with an original xylopidic structure. Extra-fluid and easy to use, it contributes to stabilize W/O & O/W emulsions and improve skin feeling.

**LUMIPOD™** is a natural tan boosting **AMINOVECTOR™** for a safe and natural glow all year round! (Isosorbide (and) Capryloyl/Capryloyl Leucine Isosorbide Esters)  
**LUMIPOD™** is a tan booster, acting in normal daily sun exposure, with a long lasting effect up to 2 weeks after use. It boosts melanin synthesis and melanosome transfer.

**NATIVE ESSENCE™** is a detoxifying active extracted from a halophyte plant, Sea Fennel, which restores hydrolipidic barrier (ceramides 3 & 6) and provides radiance to the skin. (Caprylic/Capric Triglyceride and Crithmum Maritimum Extract)
