

SKIN CARE

# EU07755 | COCOONING BODY & HAND CREAM

A natural texture from from our patented technology GELTRAP™.

NATURALITY  
PROFILE\*  
according to  
ISO 16128 norm

Enveloping film-forming  
effect

Non-greasy texture

Fight contagious ageing

\* Data provide from OECD tests, QSAR calculations, products SDS and literature.

Light green cream / Packaging : Pump

**VISCOSITIES : 1M at RT : 70 500 mPa.s Brookfield S4S6**

**Recovery at RT (after 1M at 45°C) : 26 000 mPa.s Brookfield S4S6**

**STABILITY : 1M at RT, 45°C**

**FORMULATION ADVICES : Laboratory scale - 2 kg**

Weigh and heat the water. Add SOLAGUM™ TARA and SOLAGUM™ AX under defloculator (800 rpm, 20 min). When the gel is homogeneous, reduce the speed to 700 rpm and cool in a cold water bath. At 35 °C, add the remaining ingredients of phase A. Weigh and heat phase B to 40 °C, mix, then cool to 25 °C. Add phase B to phase A. Mix under anchor (Rayneri) (300 rpm, 10 min). Then homogenise by moving the beaker under Rotor Stator at 6000 rpm for 6 minutes. Finally, stir under anchor (700 rpm, 4 min).

The fluid and light texture of this skincare, surprises with its enveloping film-forming effect !

The extra water-rich gelled aqueous inner phase gives this cream a non-greasy and non-sticky finish.

The patented technology GELTRAP™ using FLUIDANOV™ 20X & SOLAGUM™ TARA and AX allows to obtain a unique natural gel-in-oil surprising texture, fresh and cushion.

**FLUIDANOV™ 20X** (Octyldodecanol - Octyldodecyl Xyloside)

**W/O co-emulsifier** with an original xylolipidic structure. Extra-fluid and easy to use, it contributes to stabilize W/O & OW emulsions and improve skin feeling.

**SOLAGUM™ AX** (Acacia Senegal Gum - Xanthan Gum)

Smart combination of **natural thickening polymers**, it allows to formulate non-stringy translucent gels with intermediate viscosity. It also offers better stabilizing effect than xanthan gum while ensuring easy spreading and film forming effect.

**SOLAGUM™ TARA** (Caesalpinia Spinosa Gum)

A powerful thickening natural gum from Caesalpinia spinosa endosperm seeds. Synergistic efficiency with synthetic and natural polymers.

**EMOGREEN™ C69** (C15-19 Alkane\* - Coco-Caprylate/Caprates) (\*Plant-based & Renewable) provides **comfort during application & leaves a non-sticky, powdery finish.**

It is a bio-based, crystal clear, extra-fluid and readily biodegradable emollient. It is also COSMOS approved and Natrue certified. It brings a light and soft touch emulsion and wraps your skin in a soft, comfortable and powdery veil.

**ASPAR'AGE™** (Aqua/Water - Propanediol - Asparagopsis Armata Extract)

This extract of Asparagopsis armata, regulates the effect of "Senescence Messaging Secretome" in order to **reduce the contagious aging on young cells**. Thanks to this marine active, the skin looks young.

**ADDITIONAL INGREDIENTS** : Preservative : Benzyl Alcohol, Benzoic Acid, Dehydroacetic Acid and Tocopherol ; EUXYL K 903 (SCHULKE & MAYR) / Colorant : C.I. 74180 Bleu Azur (Solution 1%) & C.I. 19140 Yellow (Solution 1%) (SENSIENT LCW) / Polyglyceryl-3 diisostearate - DUB ISO G3 (STEARINERIE DUBOIS) / Butyrospermum Parkii Butter - KARITE OR (SOPHIM) / Fragrance - Halca Monci (PAYAN BERTRAND)
