D	SEPIMAX ZEN™ SOLAGUM™ AX	1.00% 2.00%
E	CONTACTICEL™ AQUAXYL™ Benzyl alcohol - Benzoic acid - Dehydroacetic acid - Tocopherol Sodium Hydroxide 12%	1.00% 3.00% 1.00%
		Up to pH

Leave-on Slime Mask

Anti-pollution

Anti-redness

Green Stringy Leave-on Slime Mask for the Face / Packaging: Jar

pH: 5.0 / **VISCOITIES: 1M at RT:** 83,400 mPa.s Brookfield LV4-6 /**Recovery at RT (after 1M at 45°C):** 73,200 mPa.s Brookfield LV4-6.**STABILITY:** 1M at RT & 45°C.

FORMULATION ADVICES: Laboratory scale - 200 g

Heat the water of phase A. Add 50% of the water to the matcha tea. Shake under deflocculation. Add the cornflour and stir with a spatula while maintaining a temperature of 75 °C to obtain a thick texture. Melt at 60 °C phase C. Add phase D, homogenize with a spatula and then pour the remaining 50% of water from phase A and make a gel-cream. Add the phase (A + B) to the cream gel. Before cooling add phase E.

This **SLIME** mask, colored & perfumed by Matcha tea, is your asset against pollution!

A stringing texture inspired by the sap of trees!

The **SLIME** mask, which is part of the Dirt Beauty trend, is your asset against PM2.5 pollution thanks to the red algae extract:

CONTACTICEL™ (Aqua/Water - Butylene Glycol - Hydrolyzed Rhodophyceae Extract) Macroalgae cells of *Acrochaetium moniliform*, from **CELEBRITY™** technology. Efficacy is proven on volunteers: it has been shown to **limit excessive sebum production** by 34% in Shanghai's polluted atmosphere & **reduces the ozonolized squalene** by 61%. It **protects the skin against ozone**.

The stringing texture is inspired by the sap of trees. It is achieved thank to a clever ingredients combination of **SOLAGUM™ AX**, natural gum, with cornstarch, for a stringing & non-sticky effect. **LANOL P** increases the consistency & richness of the "slime". **SEPIMAX ZEN™** brings an elastic effect to the formula & stabilizes the original texture of the mask.

SOLAGUM™ AX (Acacia Senegal Gum - Xanthan Gum): **Combination of natural thickening gums.**

LANOL P (Glycol Palmirate): **Texturing agent which improves the consistency** of the formula and brings soft skin feel, without any soaping effect.

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6): Powder polymer with a **MAXIMUM resistance to electrolytes** thanks to its high associative behavior. Stable from pH 2 to 8, it enables the creation of formulas with a **specific rich, velvety & elegant skin feeling**.

The formulas contains **EMOGREEN™ L15** which contributes to the lightness of the texture & provides a powdery finish.

(C15-19 Alkane)* (*Plant-based & Renewable) **Non polar & biodegradable, bio-sourced emollient.** This high purity vegetable alkane is THE alternative to volatile silicone oils. Beyond the **lightweight & non-greasy skin feel**, it gives a **powdery finish**.

This mask is colored & perfumed only by Matcha tea, suspended thanks to **SEPIMAX ZEN™**. In addition, the formula provides an anti-redness effect thanks to its green color!

ADDITIONAL INGREDIENTS: Benzyl alcohol - Benzoic acid - Dehydroacetic acid - Tocopherol: EUYXLK903 (SCHÜLKE & MAYR) / Matcha Tea: Matcha Tea (TOUCH ORGANIC) / Zea mays starch: Maizena® (UNILEVER) / Cocos nucifera oil: Refined coco oil (SOPHIM) / Olea europaea fruit oil: Olive oil (BERTIN).
