COLD PROCESS

Perfect for a daily use, it moisturizes the skin and protects it against oxidation and pollution.

Make no compromise between naturality and efficacy!

This white cream gel is stabilized by **SOLAGUM™ AX** (Acacia Senegal Gum & Xanthan Gum)
 Smart combination of natural thickening polymers. SOLAGUM™ AX also displays emulsifying properties that allow to stabilize up to 15% of oils.

The emollients **EMOGREEN™ L19** (C15-19 Alkane (Renewable)) provides a dry skin feel.

Non polar and biodegradable, bio-sourced emollient, it's THE alternative to silicone oils. This high purity vegetable alkane is conformed to Cosmos and Natrue. It gives a fresh and gliding touch, with a soft afterfeel.

ORAMIX™ CG110 (Caprylyl/Capryl Glucoside) is a green solubilizer which helps to stabilize the emulsion.

AQUAXYL™ boosts hyaluronic acid and ceramides natural content for immediate and long-term hydration (Xylitylglucoside and Anhydroxylitol and Xylitol)
 Plant-derived sugars that moisturize and restructure the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced.

Algae extracts potentiated by **CELEBRITY™** technology protect the skin against pollution and free radicals :

CONTACTICEL™ (Water & Butylene Glycol & Hydrolyzed Rhodosphecea Extract):

An extract from a rare shield algae, protects the skin against highly polluted atmosphere and regulates the overproduction of sebum.

EPHEMER™ (Chondrus Crispus Extract), extracted from a brown algae in its ephemeral gametophyte form, provides immediate and long-term anti-oxidant effect.
