Purple liquid / Packaging : Bottle

pH: 6,7

VISCOSITY : 1M at RT : 2 060 mPa.s Brookfield LV2-6.

Viscosity recovery at RT (after 1M à 45°C) : 2 010 mPa.s Brookfield LV2-6.

STABILITY : 1M à RT & 45°C, cycle -5°C/+40°C

FORMULATION ADVICES : Pilote - 5 Kg - Becomix

Add the ingredients of the phase B into the BECOMIX tank and homogenize at RT. In other tank, heat the water at 85°C and disperse other ingredients of the phase A. Add the phase A into the phase B. Emulsify during 5 minutes. Cool down slowly until 30°C before adding phase C and D. Mix and homogenize during 10 minutes and cool down until 20°C. Check the pH.

**A real moment of care with this very sensory
face and body emulsion.**

Love yourself in this cocooning care water!

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6) **single-handedly stabilizes a high percentage of glycols in a flowable gel, giving this texture a highly emollient "oil like" feel.**

Pre-neutralized powder **polymeric thickener** with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Efficient on a wide range of pH from 3 to 8, it is able to formulate transparent aqueous gels. It provides also oil stabilizing effect and particle suspension property. It imparts **rich, velvet and elegant skin feel.**

SENSANOV™WR (C20-22 Alkyl Phosphate and C20-22 Alcohols) **reduces the stickiness of glycols and provides a velvety/powdery, matte finish.**

Versatile phosphate anionic emulsifier effective at low dosage. Provides a feeling of lightness followed by the **sensation of a matt velvety veil** which slowly envelops the skin. Obtained emulsions leaves the skin supple with a long lasting sensation of comfort.

OLIGOGELINE™ PF (Chondrus Crispus Extract) **generates a moisturizing protective film that acts like a second skin.**

It works as a second skin, forming a **natural non occlusive shield** to protect from pollution effects. 78% of microparticles are removed.

The moisturizing power of this care water is provided by AQUAXYL™ (Xylitylglycoside and Anhydroxylitol and Xylitol) **which boosts the reserves and circulation of water at the heart of the skin while reinforcing the barrier effect.**

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced.

ADDITIONAL INGREDIENTS : Butylene glycol - BUTYLENE GLYCOL (OXA) / Monopropylene glycol - MONOPROPYLENE GLYCOL (CODEX) / Perfume - PARFUM ORCHIDEE - (EXPRESSIONS PARFUMÉES).
