FORMULATION ADVICES: 200 g - Hot plate & mixer

Heat phase A to 80°C, stir it until it was dissolved well. Add phase B and mix well with a defloculator at appropriate speed about 600-1000 rpm until a smooth gel forms. Add phase C under anchor gentle mixing 150-200 rpm until uniform. Cool down to 35°C and add phase D one by one under anchor mixing at 150-200 rpm till uniform.

A 2in1 shower gel for all that develops a dense and thin foam easy to rinse-off for a soft and supple skin.

Assume your bling-bling side while singing in the shower!

The gentle foaming base contains 15,9% **active matter** including **ORAMIX™ CG 110**, **ORAMIX™ L30** and **PROTEOL™ OAT PF**.

ORAMIX™ CG 110 (Caprylyl / Capryl Glucoside) is a **non-ionic surfactant from vegetable origin**. Very mild solubilizing & cleansing agent. Allows solubilizing lipophilic components (fragrances, essential oils, preservatives...) in foaming formulas and boosts foam volume. Cosmos and Natrue approved.

ORAMIX™ L30 (Sodium Lauroyl Sarcosinate) is a **mild alternative to LESNa** in sulfate free formulations. Offers higher foaming properties than LESNa. Respects the structure of skin and provides abundant, light and soft foam.

PROTEOL™ OAT PF (Sodium Lauroyl Oat Amino Acids) is a **gentle anionic surfactant** inspired by the aminogram characteristic of oat, it offers an unctuous, abundant foam without any drying effect. Thanks to its high tolerance and its excellent foaming power, Proteol OAT PF™ is suitable for a lot of applications.

SEPIMAX ZEN™ texturizes the gel and help for gold particles suspension (Polyacrylate Crosspolymer-6)

Pre-neutralized powder polymeric thickener with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Efficient on a wide range of pH from 3 to 8, it is able to formulate transparent aqueous gels. It provides also oil stabilizing effect and particle suspension property. It imparts rich, velvet and elegant skin feel. In foaming formulas, SEPIMAX ZEN™ helps to obtain denser and more creamy foams. It is non-microplastic and is inherently ultimate biodegradable: 79% in 28 days*.

XYLISHINE™ moisturizes the hair. (Xylitylglycoside and Anhydroxylitol and Maltitol and Xylitol and Pelvetia Canaliculata Extract)

The natural sugars of vegetal and marine origin makes the scalp and hair moisturized and soft.
