Discover on your skin a real sensory symphony!

SEPIMAX ZEN™ stabilizes and thickens the emulsion. (Polyacrylate Crosspolymer-6)

Pre-neutralized powder polymeric thickener with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Efficient on a wide range of pH from 3 to 8, it is able to formulate transparent aqueous gels. It provides also oil stabilizing effect and particle suspension property. It imparts rich, velvet and elegant skin feel.

A duo of excipients that bring some gliding when the cream is applied:

MONTANOV™ 202 (Arachidyl Alcohol and Behenyl Alcohol and Arachidyl Glucoside) is a glucolipid emulsifier of plant origin made in France. **Liquid crystal promoter**, it allows to create very stable biomimetic textures, providing **long-lasting hydration** and an **immediate restructuring effect** for a smoother skin texture. COSMO5

SOLAGUM™ AX (Acacia Senegal Gum and Xanthan Gum) is a smart **combination of natural thickening polymers**. It also displays emulsifying properties that allow to stabilize up to 15% of oils. Cosmos and Natrue approved, it is the perfect ally for all natural formulation. Readily biodegradable : >90% in 28 days**

EMOGREEN™ HP40 gives unctuousity, powdery finish and let a film at the surface of the skin. (C15-19 Alkane and Hydrogenated Polyfarnesene (Plant-based & Renewable) This is a non polar and inherently biodegradable, bio-sourced emollient. It's a **sustainable alternative to heavy silicones** in formulation. This high purity versatile texturing ingredient brings comfort to the hair and the skin. Multifaceted ingredient, it provides **film forming** properties with a soft and supple afterfeel.

A duo of actives

CERAMOSIDES™HP (Glycosphingolipids & Glycolipids):

The essence of perfect skin. CERAMOSIDES™ HP are an original combination (patented) of natural CERAMIDES and OMEGAS which **protect the skin from the loss of elasticity, one of the primary causes of enlarged pores** with age.

SEPIBLISS™ FEEL (Coriander Sativum (Coriander) Seed Oil)
