Waterless! Solid cream with melting balm texture for brightening skin.

New cosmetic gesture to preserve water.

EMOGREEN™ L19 (C15-19 Alkane renewable)

It is a non polar and biodegradable, bio-sourced emollient. It's THE alternative to silicone oils. It give a fresh and gliding touch, with a soft afterfeel.

MONTANOV™ L (C14-22 Alcohols and C12-20 Alkyl Glucoside)

Glucolipid emulsifier in harmony with nature. It is well-suited to formulate different textures (from sprayable to butter cream) no matter the nature or the quantity of fatty phase used. It stabilizes emulsions, and has a strong moisturizing power since it promotes liquid crystals which prevent the skin from dehydration.

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6)

Powder polymer with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Stable from pH 2 to 8, it enables the creation of formulas with a specific skin feeling, included foaming formulas: rich, velvety and elegant.

SEPINOV™ EMT 10 (Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer)

Pre-neutralized powder polymeric thickener on a wide pH range (3-12). It provides also excellent oil stabilizing property even in presence of a high percentage of oily phase. It imparts satiny and fresh skin feel. It can thicken polycols and make anhydrous gels.

AQUAXYL™ (Xylitylglucoside & Anhydroxylitol & Xylitol)

This patented sugars complex moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted and water loss is reduced.

CODIAVELANE™ BG PF (Aqua/Water and Butylene Glycol and Codium Tomentosum Extract)

Water soluble active extracted from "velvety alga" to facilitate high hydration by its richness in marine sugars.

HYDRALIXIR™ LD (Aqua/Water - Laminaria Digitata Extract)

Cellular water from Laminaria digitata: an eco-designed by-product, resulting from an energy efficient process (gentle drying).

EPHEMER™ (Caprylic/Capric Triglyceride and Undaria Pinnatifida Extract)

Extract of gametophytes, macroalgae cells of Undaria Pinnatifida. Unique sourcing of these ephemeral cells for an immediate and long lasting antioxidant effect. Specific efficacy on mitochondrial-free-radical reduction.

SEPICALM™ VG WP (Sodium Palmitylproline and Nymphaea Alba Flower Extract)

A successful marriage between palmitoylproline and water lily flower extract reaching a unique lightening and soothing effect.
