*A fluid emulsion with a watery feel!*

**FLUIDIFEEL™ EASY creates a fluid, sprayable and light emulsion!** (Lauryl Glucoside and Myristyl Glucoside and Polyglyceryl-6 Laurate) Glycolipidic O/W **sustainable emulsifier**, from 100% vegetable origin and MB certified. Processable at room temperature for time and energy savings. **Sprayable** and able to efficiently stabilize low and very low viscosity formulations. It gives **light textures**.

**EMOGREEN™ L19 gives a fresh & slippery feel with a soft finish!** (C15-19 Alkane (Plant-based & Renewable)) It is a non polar and biodegradable, bio-sourced **emollient**. It's **THE alternative to silicone oils**. This high purity vegetable alkane is conformed to Cosmos and Natrue. It gives a **fresh and gliding touch, with a soft afterfeel**.

**SOLAGUM™ AX provides a soft, non-sticky feel and a moisturising sensation to this mist.** (Acacia Senegal Gum - Xanthan Gum) **Stabilising and texturising polymer** of natural origin with excellent resistance to electrolytes.

**AQUAXYL™ & HYDRACHRYSUM™ provide immediate and long-term deep hydration!**

**AQUAXYL™** (Xylitylglycoside - Anhydroxylitol - Xylitol)

A combination of natural moisture-boosting plant sugars that hydrate and restructure the skin by harmonising the skin's moisture flow.

**HYDRACHRYSUM™** (Aqua/Water - Glycerin - Helichrysum stoechas Callus Culture Lysate)

It fights effectively and durably against skin dryness. It increases the number of lacunar zones, markers of hydration acting as extracellular water reservoirs and breaks the vicious circle of Inflamm'dryness.
