Snail-slime like texture with additional benefits!

The association of **FLUIDIFEEL™ EASY** and **SOLAGUM™ AX** creates “snail-slime like” texture:

SOLAGUM™ AX (*Acacia Senegal Gum and Xanthan Gum*)

Solagum™ AX is a **smart combination of natural thickening polymers** providing versatile sensoriality profile: below 2%, Solagum AX has a non-stringy effect and up to **3%**, Solagum AX offers the opportunity to **imitate snail slime**

FLUIDIFEEL™ EASY (*Lauryl Glucoside and Myristyl Glucoside and Polyglyceryl-6 Laurate*)

This glycolipidic O/W natural emulsifier helps to **stabilize the texture** creates by Solagum™ AX while **giving light texture** to the cream, for a **comfortable, soft and nude sensation on the skin**.

A non-greasy finish on the skin with EMOGREEN™ L15 (*C15-19 Alkane*)

(*Plant-based & Renewable*)

EMOGREEN™ L15 is a plant-based non polar emollient, it's THE alternative to volatile silicone oils. Beyond the **lightweight and non-greasy skin feel**, it gives a **powdery finish to the skin** after application of the elastik cream.

SAGACIOUS™ reduces skin sagging. (*Propanediol - Himanthalia elongata Extract*)

The daily application of this cream on the skin, containing Sagacious™, helps to **limit skin sagging** by a **reduction of nasogenian fold** and **improvement of firmness**.

SEPIlift™ DPHP bring a complementary action by reducing the appearance of visible signs of aging. (*Dipalmitoyl Hydroxyproline*)
